PERCHERON STALLION NAPOLEON

SEVEN COUNTIES BADLY FLOOD-ED.

Texas Flood Now Abating, Is Report; Crops Are Seriously Damaged.

Houston, Texas, April 27.—Reports today from the flooded districts on the whole are regarded as encouraging and the belief is growing that no further disaster will result. The present center of destruction comprises Brazos, Burleson, Milam, Washington, Bastrop, Waller and Wharton counties, where the trans state streams are all out of their banks and great areas of fine farming lands have been inundated.

The Brazos is rising rapidly in lower central Texas and floods are reported coming from its upper stretches, but a cessation of rainfall near the coast has helped matters considerably.

The Trinity is reported rising rapidly as far south as Long lake. The Colorado is away out of its banks and enormous damage has resulted along its course.

Crops Destroyed, Homes Abandoned.

From all flooded points come reports of crop destruction, livestock loss and abandoned homes, but no additional loss of life.

Railways continue to be severe sufferers and reports of washouts and bridges gone are coming in hourly. Virtually no lines are attempting to maintain train service, but will they do so for another 48 hours at the earliest.
